

MORE THAN A TICKET

WHAT IS SOOCIAL?

Social is a trailblazing blockchain-based platform for selling event tickets. With our revolutionary technology, we empower attendees and turbocharge promoters' monetization—both during and after the event.

By leveraging blockchain, Ssocial revolutionizes the way event tickets are bought and sold. Our platform provides a secure and transparent environment, ensuring that each transaction is verifiable and tamper-proof. With the power of blockchain, attendees can have peace of mind, knowing that their tickets are authentic and valid.

But Ssocial doesn't stop at ticket sales. We go beyond the event itself to maximize the value for both attendees and promoters. Our platform offers post-event engagement and monetization opportunities, allowing promoters to continue capitalizing on the event's success long after it's over.

TRADITIONAL TICKETS

Easy to forge

No monetization after the event

Can't monetize resales

Can't track tickets or owners

Tickets are ugly QR or PDFs

SOOCIAL TICKETS

Impossible to counterfeit

Lifetime monetization after the event

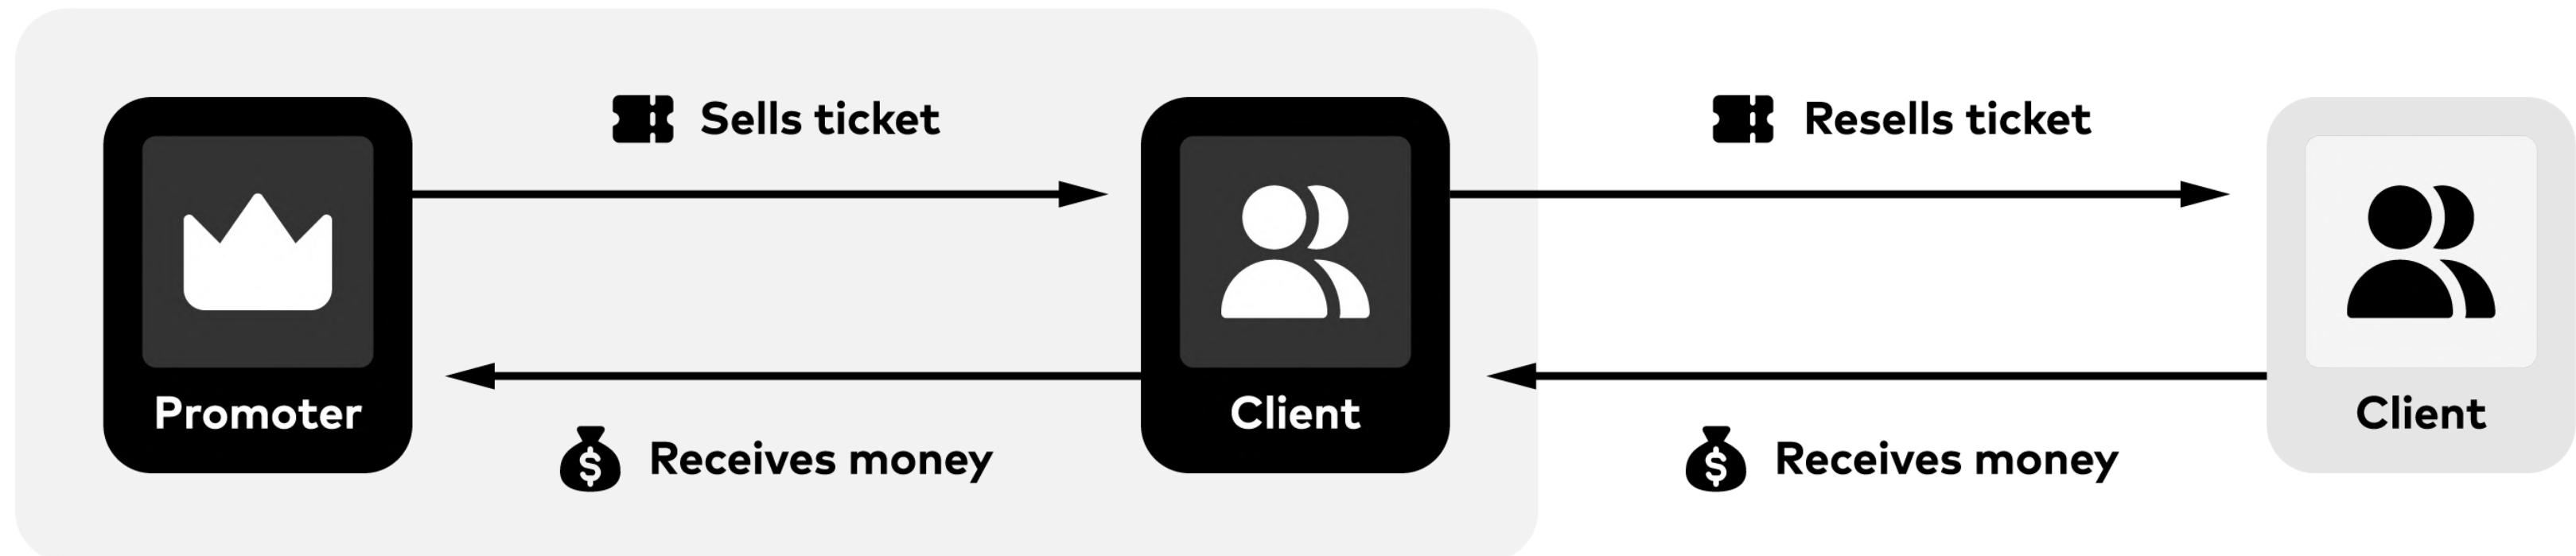

Every resale can be monetized

Easy ticket & owner tracking

Tickets act as collectibles

TRADITIONAL TICKET FLOW

Resales out of the platform are difficult to track & monetize

SOOCIAL VS TRADITIONAL

Imagine a 3,000 people event with a price \$20 each ticket. After selling out, there are 500 clients who wish to resale their tickets for \$35. After the event, the promoter decides to announce a new event. Thanks to Soocial's ticket tracking, the promoter can enable early access for all the previous event ticket holders. Besides, the event promoter will also raffle a Meet&Greet ticket between all the previous event holders. This leads to a resale of 650 of those otherwise expired tickets for \$20 each ticket. The winner of the Meet&Greet ticket was speculating and doesn't like the artist, so he sells the Meet&Greet ticket for \$500.

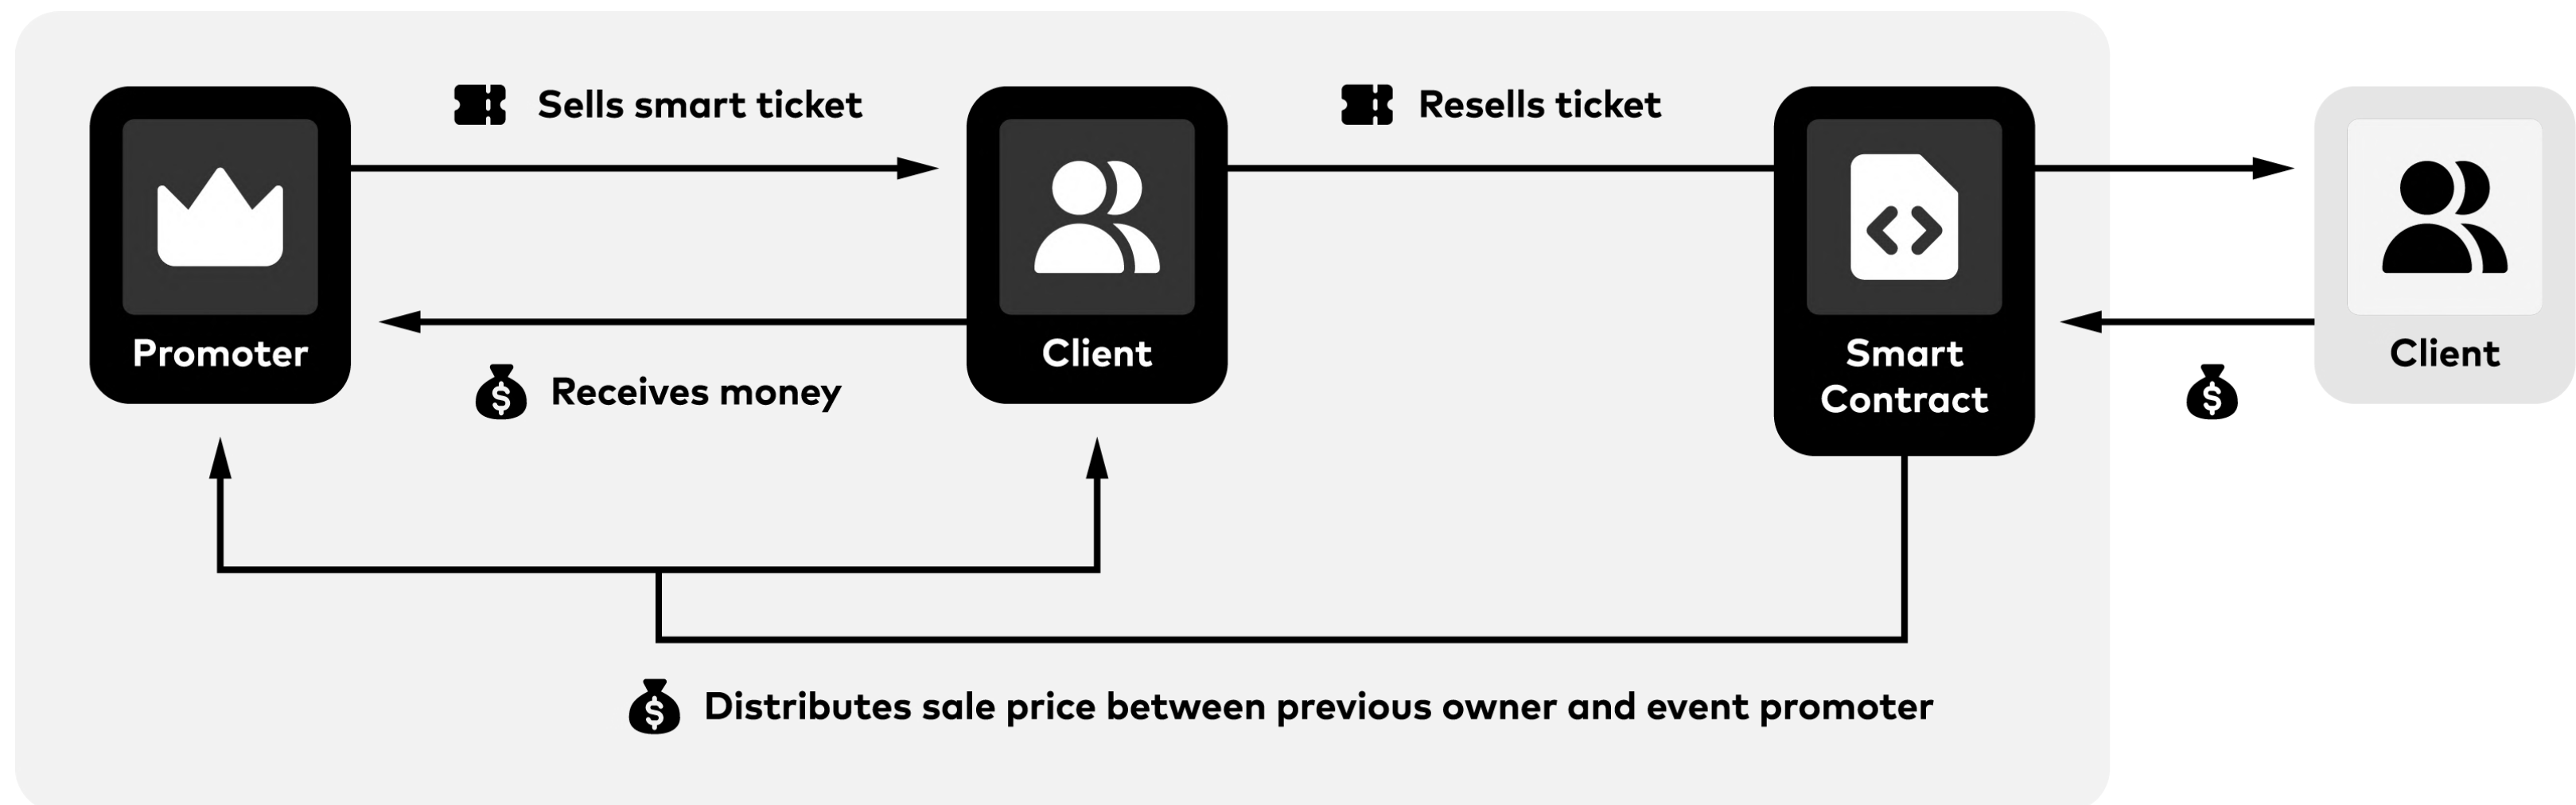

WHAT WOULD YOU EARN USING SOOCIAL?

CHECK IT OUT!

SOOCIAL TICKET FLOW

Soocial verifies the ticket's authenticity and sends a 10% of the sale price to the promoter in every single transaction
